Program Information

Program Description	<p>The course of study for the Doctor of Physical Therapy (DPT) Program begins in the summer semester and continues on a full-time basis for three years, including three summers of supervised clinical practice. This innovative entry-level program encompasses the study of normal and abnormal structure and function and the theory and practice of physical therapy. Students obtain clinical experience in a variety of hospitals, rehabilitation centers, schools for children with physically disabling conditions, nursing homes, private practices, and public health agencies. The student is awarded a professional doctoral degree upon completion of the program, is eligible to sit for licensure, and is prepared to practice in a clinical setting. The Doctor of Physical Therapy Program aims to develop competent, autonomous practitioners with the expertise and skills to:</p> <ul style="list-style-type: none"> * Perform examination of patients/clients across the life span for impairments, functional limitations, and disabilities and for prevention, wellness, fitness, and health promotion needs. * Provide interventions across the life span for the management of injury, impairments, functional limitations, and disabilities; * Maintain and promote fitness, wellness, health, and quality of life; * Ensure availability, accessibility, and excellence in the delivery of physical therapy services to patients/clients across the life span; * Serve as an educator, screener, administrator, consultant, delegator, and manager; * Assume leadership roles in prevention and health maintenance programs and rehabilitation services; * Utilize research to support practice; * Impart information to colleagues; * Assist in the development of and advocate for health policy standards tied to physical therapy practice; and * Establish a plan for professional development and life long learning.
