The Doctor of Physical Therapy Program at Oakland University is a professional graduate program which prepares individuals for licensure and entry into the physical therapy profession. As a graduate program, it includes theoretical, clinical practice, and research courses and experiences to prepare graduates to function in a variety of settings in physical therapy.

The DPT Program is an intensive educational experience spread over three and a half years with 8 weeks off in the summer of the first and second year. It is designed to prepare clinicians with the evaluation and examination skills necessary to make physical therapy differential diagnoses of movement related impairments affecting the neuromusculoskeletal system. In addition, this degree will prepare graduates to provide effective care in the areas of prevention, screening, rehabilitation and community reintegration for their clients. Finally, graduates will be able to interpret, and conduct research related to physical therapy.

Oakland University has many different opportunities to enhance student learning throughout the program.

* State of the art cadaver lab
* Small class sizes and low student to instructor ratio in labs
* Standardized, simulated and in-class patient/client experiences
* Community involvement, wellness and health promotion
* Multiple inter-professional education opportunities
* Opportunities to participate in DPT student organizations
* Opportunities for a variety of clinical experiences both in-state and out of state
* Opportunities to be mentored by faculty who are specialists and leaders in the practice of cardiopulmonary, neuromuscular rehabilitation, oncology rehab, orthopedics, orthopedic manual physical therapy, palliative care, pediatrics, and wellness and health promotion

Students who graduate from our program are well rounded and competent to work in all areas of the physical therapy profession. Overall, our goal is to prepare students to function as a lifelong learner and an independent thinker with the ability to interact effectively with patients, their families and meaningful others, as well as with other members of the health care delivery team.

Additional information about program's GPA requirements: An overall cumulative GPA of 3.00 or above as calculated by PTCAS is required for admission to the DPT program. Applicants must have received a grade of C or better in all required prerequisite courses with an overall average of a 3.0. Transcripts will be used to make the determination on the prerequisite course grades. Math/science GPA as calculated by PTCAS is also considered in the admission process. Students will be considered for admission if they list a plan in the PTCAS application to complete their baccalaureate degree and all required prerequisite courses prior to the start of the program. To be fully accepted into the DPT program students must complete a baccalaureate degree and all required prerequisite courses prior to the start of fall courses in the first year.

| Program considers Canadian coursework? | Yes |
| Program policy for non-U.S. (foreign/international) coursework | Send WES foreign transcript evaluation to PTCAS (recommended) |
| Are non-native English Speakers required to submit TOEFL scores? | Yes |

Additional information about program's policy on foreign coursework: Foreign-educated students must meet all university requirements for proficiency in English. International Application Requirements: Applicants who are not U.S. citizens and/or applicants with foreign academic credentials may also be required to submit the following application materials: 1. Official scores for the Test of English as a Foreign Language (TOEFL) from applicants who are graduates of programs taught in a language other than English. 2. Word-for-word translations of all foreign language documents. Both the original transcript (in the native language) and the English translation are required for review. Additional requirements for international students may be required by Graduate Admissions. [https://oakland.edu/grad/future-graduate-students/international/](https://oakland.edu/grad/future-graduate-students/international/)
## Course Prerequisites

<table>
<thead>
<tr>
<th>Bachelor's degree required prior to matriculation into PT program?</th>
<th>Yes</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Information</td>
<td>Prerequisites do not need to be completed before applying to the program. Plans for completing the prerequisites should be outlined in the PTCAS application. A minimum grade of a C or greater is required for fulfillment of all prerequisite courses along with an overall prerequisite GPA of a 3.0 average. Please see the PTCAS Directory page for additional information. Transcripts will be reviewed to verify the grades.</td>
</tr>
<tr>
<td>Anatomy and/or Physiology (A&amp;P) course prerequisites MUST be completed in biology, neuroscience, anatomy, or integrated physiology department</td>
<td>No</td>
</tr>
</tbody>
</table>

### Anatomy

One lab which may be a separate course or integrated into the lecture course is required in the biological science prerequisite requirements. It may be taken in any of the following prerequisite courses: Biology, Anatomy or Physiology. A combined anatomy and physiology course is a accepted however must take two semesters or a minimum of 6 credits.

<tr>
<td>Program has rolling admissions process?</td>
<td>Yes</td>
</tr>
</tbody>
</table>

Oakland will be using a rolling admissions process. All applications must be completed and e-submitted by **October 15, 2021**. Verified applications will be reviewed by the admissions committee as they are received. However, if an applicant submits a fully completed application by **August 15, 2021** and meets the following criteria, they will receive an early assurance decision response by September 20, 2021.

- Overall GPA: at least 3.5
- S/M GPA: at least 3.4
- Verbal GRE: 148 or greater
- Quantitative GRE: 148 or greater

All other applicants who meet the eligibility requirements for the program will receive a decision response no later than **December 10, 2021**.

### Important dates

The following materials must be e-submitted by the deadline date in order to be considered for admission:

- Complete application submitted to PTCAS
- Official Transcripts submitted to PTCAS
- Two recommendation letters submitted to PTCAS
- Official GRE scores to code **0650** and posted to PTCAS

**DPT Informational Meetings:** Please come to a presentation to discover more about the DPT program at Oakland University. You will learn details about the DPT program, curriculum, faculty, facilities and the admissions process which will help you to decide whether Oakland University is the right DPT program for you.

The schedule of presentations may be found on the OU DPT web page [https://oakland.edu/shs/human-movement/physical-therapy-doctorate/](https://oakland.edu/shs/human-movement/physical-therapy-doctorate/).

**OU Graduate Application:** Please note that applicants for the DPT program **DO NOT** need to complete an Oakland University Graduate Application to be considered for admission. There is **NO** supplemental application required.

**"Additional fees might be required for online exam proctoring"**
