## Program Information

Saint Louis University Program in Physical Therapy is an early assurance DPT program that accepts college freshman into a 6-year DPT Program. The Program has not had space to accept post-baccalaureate transfer students in recent years, but may have seats in the future. Potential applicants can stay informed about post-baccalaureate admission possibility by visiting the SLU Program in PT web site (<https://www.slu.edu/doisy/degrees/undergraduate/physical-therapy.php>).

This page is intended for college transfer students and graduates ONLY. High school students MUST contact the institution directly for information about the guaranteed freshman-entry program. Do not apply using PTCAS.

Program Description	<p>The Saint Louis University Program in Physical Therapy is a freshman admit program with students completing a 6-year program combining a Bachelor of Science in Exercise Science and the Doctor of Physical Therapy degrees. Typically, a cohort of 95 freshman students are admitted each fall. The attrition of students during the pre-professional phase is primarily a result of major changes by student; only a small percentage of students either leave the university or do not meet the necessary academic and/or professional behavior requirements. Consequently, admission for post-baccalaureate students is based on space availability. There likely is not space available for post-baccalaureate students for the cohort beginning the professional phase in May 2021.</p> <p>The Program anticipates that there may be space available for the DPT class entering in May 2022. Potential applicants can stay informed about post-baccalaureate admission possibility by visiting the SLU Program in PT web site (<a href="https://www.slu.edu/doisy/degrees/undergraduate/physical-therapy.php">https://www.slu.edu/doisy/degrees/undergraduate/physical-therapy.php</a>).</p>
